Education

Indian Institute of Information Technology Guwahati   **2022 − 2026**
B.Tech in Electronics and Communication Engineering

Skills

Frontend: React.js, Next.js, Tailwind CSS, HTML, CSS, JavaScript, Redux.js
Backend: Node.js, Express.js, REST API, Socket.IO
Database: MongoDB, SQL
Languages: C, C++, python

Experience

Software Development Intern — Triksha Health   *June 2025 – July 2025*

- Worked on full-stack development tasks for a health-focused platform.
- Built UI components using React and improved API performance in Node.js backend.

Projects

Take   [GitHub]
Betting platform inspired by Stake.com using MERN Stack.

- Google Sign-in, real-time chat groups (Socket.IO), and betting mechanics.
- Uses Fetch API and MongoDB to manage live game and user data.

ChatApp   [GitHub]   [Live Demo]
Full-stack real-time chat app with group and private messaging.

- Built with Next.js, Node.js, MongoDB, and Socket.IO.
- Features include theming, admin controls, and seamless authentication.
